Perception and Tone

Target Audience

By partnering with Hostopia, these individuals are able to increase stickiness on their core and value-add services.

The Hostopia target audience consists of product managers and executives at a telecommunications, digital agency, local publisher or other service provider company. These are the individuals responsible for introducing and growing Value-Added Services (VAS) on behalf of their company to introduce new products, add value to customers and grow their service portfolio and bottom line.

Our target audience has two primary business objectives: to define and deliver a potent mix of services that will help the organization drive growth; and to reduce customer churn and protect the base.

CORPORATE SUMMARY

Hostopia is a leading provider of private label web services and business communication tools that allow service providers to differentiate their core product offerings, drive incremental revenue and build customer retention.

Service providers are able to resell services under their own brands, in turn allowing small businesses to establish a web presence, generate leads, be more productive and increase their online sales.

Behind the Brands That Power Small Business

The Hostopia tagline is meant to give an introduction to the goals and services of the company.

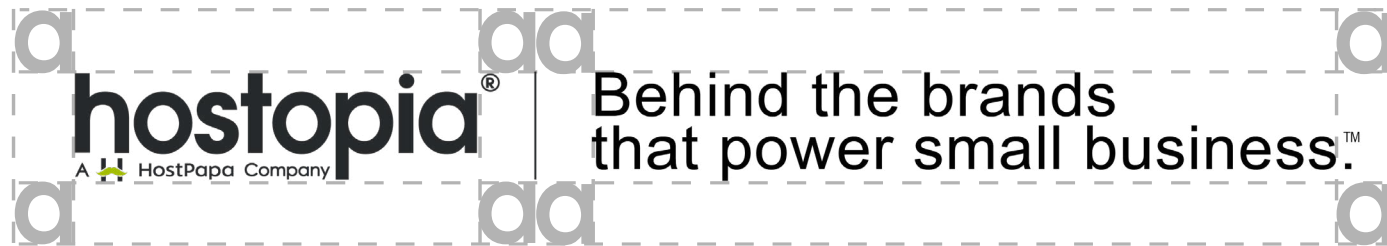

The tagline references Hostopia as a private label company (Behind the brands), alludes to technological and business communication tools (that power) and identifies then main end customer (small business).

Primary Logo

The primary Hostopia logo is a charcoal word mark on a white background.

Clear Space - Horizontal and Vertical Tagline

The primary tagline placement is to the right of the logo, with a line of separation, and the indicated amount of space around both.

The logo/tagline placement can be used in white or dark gray.

The tagline can be used in connection with the Hostopia logo in sales and marketing materials.

The alternate tagline placement is stacked below the logo.

This placement should only be used when the primary placement is not feasible.

Clear Space - Horizontal

The logo should be placed in the top left corner whenever possible, with the bottom left corner used as an alternative.

Alternate Logos

LOGO APPLICATION

The first alternate logo is white. This logo should be used in any cases where a dark background is used.

2.55 CM

Minimum Size

Logo Uses

The stand-alone logo should be placed top left in Hostopia branded assets wherever possible, for example on branded word documents. The standalone logo can be used watermarked (i.e., 20% gray) when the logo and tagline appear at the bottom of the asset, for example in branded emails. The standalone logo can also be used on collateral where the logo and tagline occupies too much space—for example social posts.

The logo and tagline should be used in formal sales and marketing collateral and communications—for example sales slicks and branded emails. The logo and tagline should be placed bottom left in collateral wherever possible, or top left as an alternative. The logo and tagline is also used on branded stationary and letterhead.

The h icon is used in the footer of collateral such as sales slicks and PowerPoint presentation decks, and sometimes alone on swag or other marketing items.

The white h icon should always be on a charcoal background.

Try not to place the logo on a colored background other than dark gray or white. Do not place the logo over an image. Do not alter the logo or add a shadow or gradient.

The Don'ts

These examples demonstrate improper use of the Hostopia logo.

If you are unsure about using the Hostopia logo, please contact marketing@hostopia.com.

Should not be used on colors, shades of gray or over a photo.

— ONLINE STORE BY HOSTOPIA

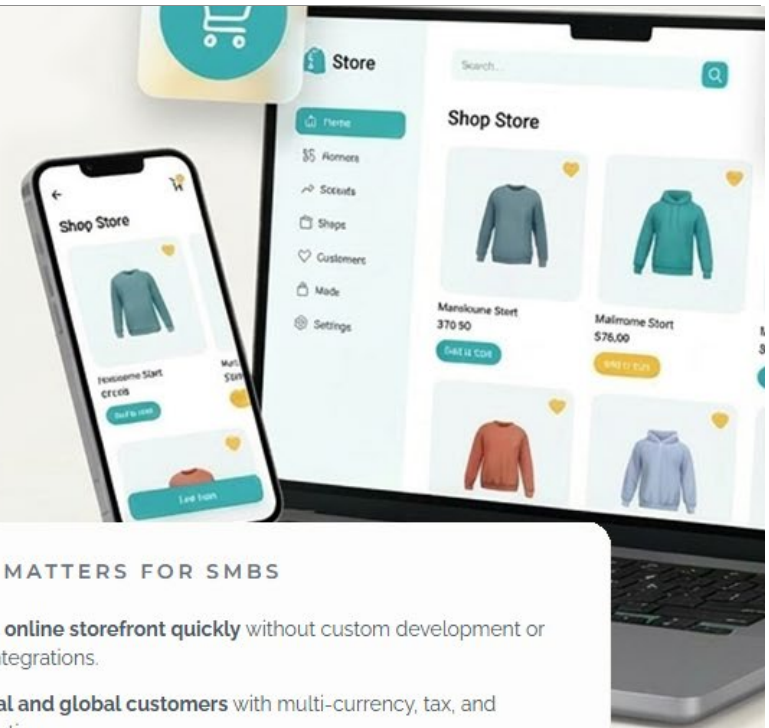

White-Label Ecommerce & Online Store Platform

SMBs face increasing pressure to sell online, expand beyond their local market, and deliver modern checkout experiences—but many lack the skills, budget, or time to manage a full ecommerce stack.

Hostopia's white-label Online Store gives you a turnkey, mobile-ready ecommerce platform to resell under your own brand. Fully integrated with Online Presence Builder, it lets SMBs start small, scale over time, and keep everything connected to the websites and services they already buy from you.

[Book a demo →](#)

 White-label Online Store, powered by Hostopia

WHY THIS MATTERS FOR SMBs

-  **Launch an online storefront quickly** without custom development or complex integrations.
-  **Sell to local and global customers** with multi-currency, tax, and shipping options.
-  **Modern checkout experiences** with trusted payment gateways and mobile-ready layouts.
-  **Sell goods, services, gift cards, and subscriptions**—and expand to Instagram, TikTok, Pinterest, and marketplaces like Amazon.

— WHAT YOU OFFER

Under your brand

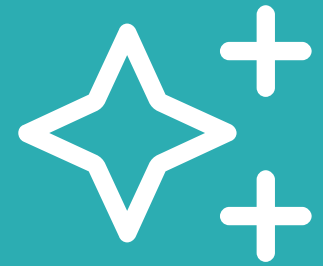

You can package Hostopia's Online Store as a branded ecommerce add-on or core bundle with your website and hosting offerings.

Iconography

Hostopia uses icons to help define a small business category or help represent an idea. Because the styling is bold and simple and detail is minimal, they are intended to be used as graphic visuals rather than facsimiles of specific products and services.

For icons, we recommend using Font Awesome 6 Pro from <https://fontawesome.com/>, specifically in the Light weight, to maintain a clean, consistent, and professional visual style across your designs.

COLOR.

The Color Palette

PRIMARY PALETTE

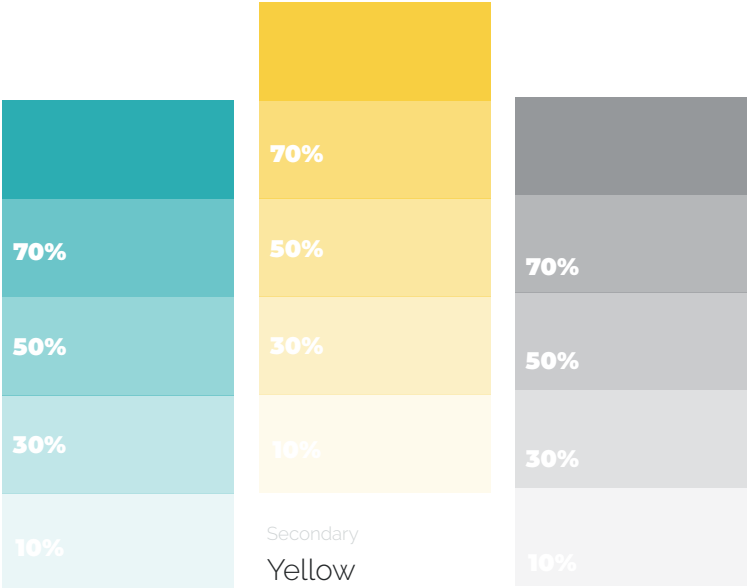

Over 70% of the visual identity of Hostopia is composed of white and charcoal to build a clean, corporate, global look-and-feel.

Primary	
Charcoal	
Pantone	426 C
CMYK	94 77 53 94
RGB	37 40 42
HEX	#25282A

SECONDARY PALETTE

These colors include a blue and yellow, used to add a contemporary and energetic tone to the brand and also medium gray.

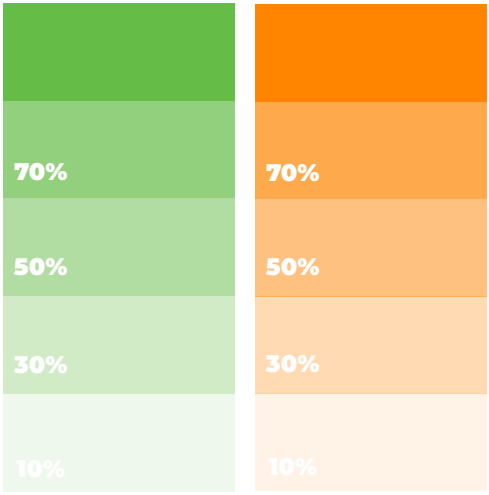

Secondary	
Blue	
Pantone	632 C
CMYK	100 0 27 0
RGB	44 173 178
HEX	#2CADB2

Pantone	P 4-7 C
CMYK	0 17 74 3
RGB	248 207 65
HEX	#F8CF41

Secondary	
Medium Gray	
Pantone	7 C
CMYK	0 0 0 50
RGB	151 153 155
HEX	#97999B

TERTIARY PALETTE

The Tertiary palette is intended to be used sparingly as accents. Generally the green and orange would not be used together.

Tertiary	
Green	
Pantone	368 C
CMYK	64 0 100 0
RGB	102 188 41
HEX	#66BC29

Tertiary	
Orange	
Pantone	151 C
CMYK	0 59 100 0
RGB	255 132 0
HEX	#FF8000

Product Imagery

Hostopia sales and marketing collateral may include images of either product/service representation or photography.

Web Services

To visually represent our diverse offerings, screen captures and service representations can be displayed within electronic devices overlaid over photography or color backgrounds.

Product/Service

Product/service photography should be bold and iconic. Images can be comprised of a group of similar or related products.

Placement

Devices might include a monitor, laptop screen (no keyboard visible), tablet or mobile device.

Devices should be cropped on one or two edges if possible. In some cases, full device can be shown.

Monitors can be used on a variety of background including but not limited to imagery. White monitors on white backgrounds should always have a soft shadow.

Whenever possible, consider using AI-generated images to quickly create unique visuals that enhance your content while saving time and resources.

Small Business

Hostopia sales and marketing collateral may include images of either product/service representation or photography. Photography must be appropriately licensed. End-customer portraits and lifestyle photography is used to contextualize products and services, that add visual interest. Images should be of small businesses and include the owner in their element enjoying their work in most cases, preferably not looking directly at the camera. Do not mesh or collage customer portraits and lifestyle photography.

A group of people are gathered in a modern, well-lit living room. Several individuals are seated on a dark grey sofa and armchairs, some using laptops. The room features contemporary decor, including a large glass coffee table with a geometric pattern, a blue textured vase, and a white spherical object. The background shows a large window with a decorative screen and a lamp. The overall atmosphere is professional yet relaxed, suggesting a collaborative work environment.

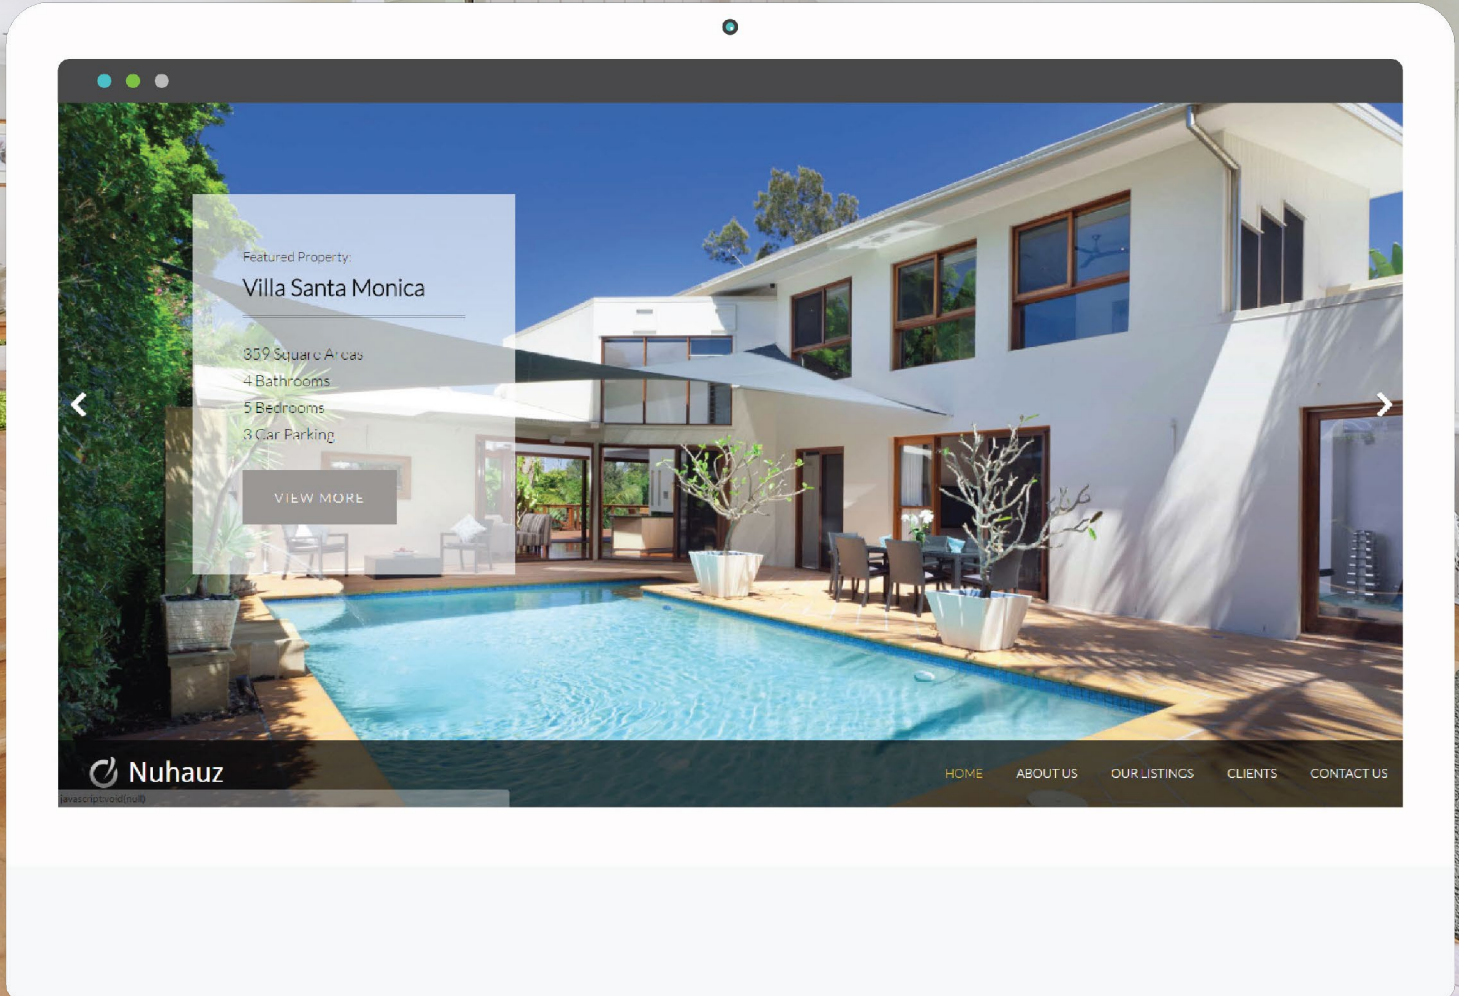

Enterprise

In addition to SMB services, Hostopia offers wholesale services at an Enterprise level. When creating sales and marketing collateral for Enterprise level service offerings, choose photography that mirrors some of the SMB End User traits in a corporate or Enterprise setting. Use candid photography of people in a real setting. Try not to use photography where subjects are looking directly at the camera.

A man with a beard, wearing a white button-down shirt with a small black pattern, is looking down at a black smartphone he is holding with both hands. He is standing on a city street. In the background, there are green trees, a yellow traffic light, and a white bus. The Freedom Tower is visible in the distance under a clear blue sky.

Technology

Hostopia sales and marketing collateral may include images of either photography or product/service representation. In some cases, it may make sense to use technology or infrastructure focused imagery when discussing infrastructure or performance. Please do not use images which have combined a technology background with animated or added enhancements.

Stock Photos

Do's

Happy, bright, colorful Candid & natural
Small business images Realistic Professional
Multicultural

Don'ts

Unrealistic e.g. no holograms Corny stock
photos Too techy Looking forced or posed

Hostopia posts important facts, relevant information, and announcements weekly to keep our partners, and potential clients engaged and informed.

Branded Merchandise

All swag must be in the colors indicated in the color palette. The dominant color is charcoal with blue for pops of color and visual appeal. Any logo can be used where appropriate but when object is small such as in a USB the "h." icon should be solely used.
